3. Shortly before the breakdown of the Nazi regime, Motsch was working on an improved model of the jet fighter aircraft, and he has been carrying on this work in the USSR.

the plane will soon be finished and tested. Owing to his lack of faith in Soviet workmanship he anticipates a fifty percent chance of success. He is dreading the first flight, in which he will presumably take part.

4. It is rumored that the Junkers-Werke in Dessau will be re-erected near Leningrad.
